

Town of Williamstown.

*Surveyor's Office,
Town Hall,*

Williamstown, Mar. 30th 1916.

TO WHOM IT MAY CONCERN.

The bearer, Mr W. Crowe, has been Curator to the Williamstown Council for the past three years. as such he has had full charge of all the parks and gardens within the Town. Since he took charge the gardens have been wonderfully improved until to-day they are recognised to be one of the finest in the Metropolitan area. The present condition is due entirely to his energy and enthusiasm, for there has been no extra expenditure. I cannot speak too highly of his qualifications as a horticulturist and can confidently recommend him to any corporation or individual requiring his services.

Wm. A. Mason

Town Surveyor.
