

## CHILDREN'S CODE OF CONDUCT

### Help us care for our Williamstown Botanic Gardens

The gardeners work hard to keep our gardens looking wonderful all year. They mow the lawn, weed the garden beds, feed the plants and prune the roses. They plan special flower displays to make the garden look nice.

Did you know that the gardens were planted a long time ago? Some of the trees are very old and rare. It is important that we look after them.

You can help care for the gardens by just doing a few simple things:

- Leave flowers, leaves and plants for others to enjoy
- Draw a picture or take a photo of a flower for a souvenir
- Walk on the paths and lawns
- Respect wildlife (possums, insects)
- Leave your pets and balls at home
- Respect other visitors to the gardens
- Enjoy a BBQ outside the gardens (many provided with seating)
- Walk your bike or scooter on the paths
- Please take your rubbish with you

We hope to see you back in the gardens soon!
